

The update to SpecialServices offers users and administrators an improved process for delivering on the special education needs of students with a reduced administrative load, easier state compliance, and enhanced compliance monitoring.

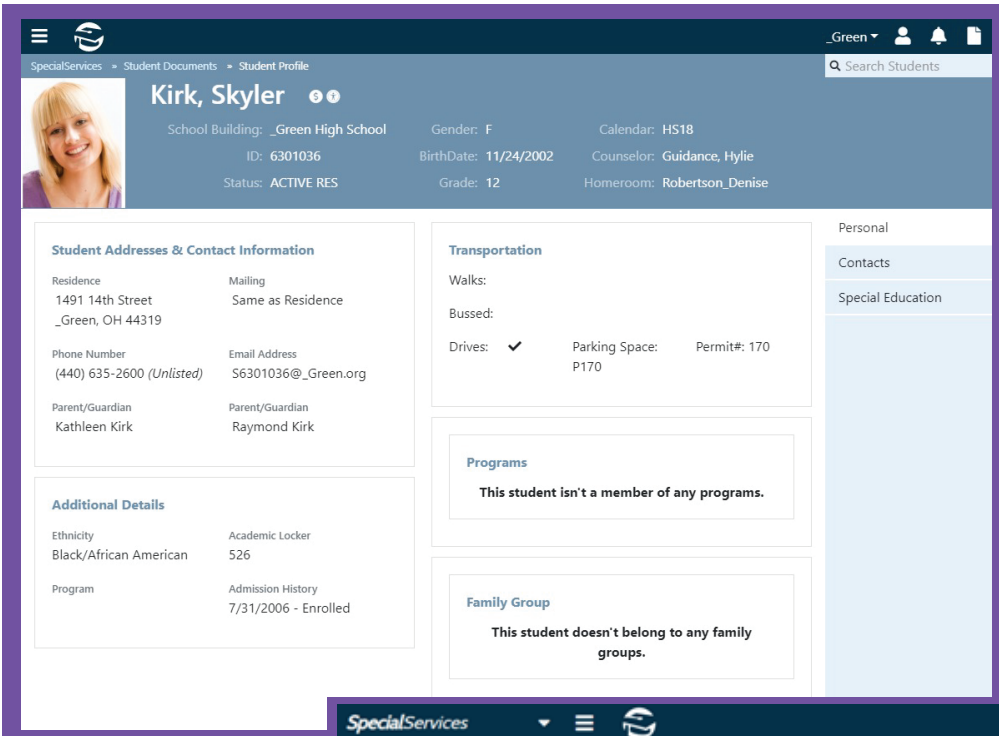

## Benefits

- Manage compliance due dates via the Dashboard widgets
- Regulate who can access and assign caseloads
- Easily monitor form completion statuses for upcoming special education tasks
- Enjoy a smoother EMIS verification process that serves to save time

## Features

- An autosave/collaboration feature that lets you work on the same form at the same time as your colleagues
- Ability to preview the entire document as a whole instead of one page at a time
- A Student Profile that displays crucial student data from across the Suite in one location
